

Glossary (Volume I)

Accountable Plan

A plan adopted by an organization for reimbursing out-of-pocket business expenses to volunteer workers and employees. The plan must be adopted by the responsible body. Each business expense should be substantiated with adequate records and receipts to the organization within a reasonable time for reimbursement or to close an advance payment. Any unused advance payment must be returned.

Annuity

A contract that pays a monthly (or quarterly, semi-annual or annual) income benefit for the life of a person or for a specified period of time.

Cafeteria Plan

The Cafeteria Plan comes from Section 125 of the Internal Revenue Code. Section 125 allows employers to offer workers a choice of cash or certain employer paid benefits including group term life insurance, medical insurance premiums, reimbursements of certain medical expense and dependent care. Note that the worker must have the option of receiving an employer paid benefit or cash. If cash is selected by the worker the amount paid is included on the W-2 while qualified benefits are not included on the W-2. (See also, Flexible Spending Arrangements below.)

Compensation

The total cost of a worker to the organization including salary, allowances and benefits, but exclusive of reimbursed expenses.

Contribution

In the context of the Church Treasurer a contribution is a gift of cash, services, time or property for which a value can be fixed and for which a receipt may be required.

Debt Financed

Property purchased by securing a mortgage loan.

Deferred Compensation

Method of supplementing an individual's retirement benefits by deferring a portion of his or her current earnings. To qualify for a tax advantage, the IRS requires a written agreement between an individual and the employer stating the specified period or deferral of income. An election by an individual to defer income must be irrevocable and must be made prior to performing the service for which income deferral is sought.

Employer Identification Number (EIN)

An EIN is necessary for an organization once it incorporates. This number must be used on all forms and

filings to the IRS, and for opening a checking or savings account in the organization's name.

Endowment Fund

Permanent and true endowments—funds created by third-party donors with the stipulation, as a condition of the gift, that the principal is to be maintained inviolate in perpetuity (principal is not expendable) and that only the income resulting from the investment of the fund may be expended in accordance with instructions by the donor.

Term endowments—similar to permanent or true endowments except that the terms of the gift instrument permit the principal to be expended all or in part upon the happening of a particular event or the passage of a stated period of time.

Quasi endowments—funds established by the board of directors or church council and functioning like an endowment fund. However, they are subject to change and restoration to current operating funds at the discretion of the board.

Excess Group-Term Life Insurance

The Internal Revenue Service has ruled under Internal Revenue Code Section 72(m) that the cost of group-term life insurance, or its equivalent, for benefits in excess of \$50,000 purchased as a part of a qualified plan is to be included as part of the gross income of the participant for the tax year. The IRS has also ruled in IRC Section 79 that such cost is also subject to Social Security tax (FICA or SECA). The cost for such benefits is established by the IRS and is based on the age of the worker.

Excise Tax

Tax imposed on an act, occupation, privilege, manufacture, sale or consumption.
