

Resources

Resources:

Introduction

A number of books, manuals and bulletins are published on topics relevant to the church and the clergy. Many of these publications address tax and legal issues as these are topics of frequent change.

Listed below and on the following pages are the organizations that publish material on the subjects addressed in this manual. The resources available range from textbooks to monthly newsletters.

As some organizations publish several booklets on specific subjects, only the larger publications are specifically noted. Most organizations will send you a list of their publications, so the address is included. Your district and the Synod office may have copies of most of the publications listed, so you may contact them for recommendations.
