Analysis of the New England District Charts

* All Charts - The New England District was created out of the Atlantic District in 1973.

* All Charts - As with other Northern Atlantic coast districts, there was a major loss in all statistics in 1977.

* Chart A - From 1977 until the early 2000s, the New England District remained fairly steady.

* Chart A - Since about 2002, however, they have experienced a gradual decline in membership, while also increasing in total congregations.

* Chart C - There was an unusually large drop in giving in 2004-2006 that may be due to anomalous data or unique contextual factors.
